

The message of the Science and Information Technology Section from the Romanian Academy

Dear Colleagues,

Please receive our appreciation for the permanent efforts in publishing *Informatica Economica* journal, which publishes a quarterly issue, on 30 March, 30 June, 30 September and 30 December of each year. This edition marks a very special moment, because we celebrate the 100th issue of *Informatica Economica* journal.

The journal is realized inside the Department of Economic Informatics and Cybernetics from Bucharest University of Economics and has an important editorial board formed by well-known academic personalities around the world.

Now, at the anniversary moment, the Department of Economic Informatics and Cybernetics from the Faculty of Cybernetics, Statistics and Economic Informatics presents itself as a building built on a very solid foundation, with modern curricula, well-equipped laboratories with computers and a teaching staff elite, whose scientific papers have received the recognition of the Romanian Academy.

Informatica Economica journal is indexed in international databases, such as Directory of Open Access Journal, Cabell's Directories of Publishing Opportunities, EBSCO (Business Source Complete), ICAAP, Index Copernicus, Index of Information Systems Journals, Inspec, Open J-Gate, ProQuest Central, RePEc, Ulrich's Periodicals Directory.

The journal is published in English, both in printed and electronic version. The journal website is: <http://revistaie.ase.ro>. More details about the journal are presented below:

Journal Title: *Informatica Economica*

ISSN Print: 1453-1305

ISSN Electronic: 1842-8088

Editor-In-Chief: Prof. Paul POCATILU, PhD

Publisher Name: INFOREC Association

Publisher Address: Calea Dorobanti 15-17, 01552 Bucharest, Romania

1st Year of Publication: 1997

Frequency (no. of issues per Year): 4

The INFOREC Association carries out numerous activities in supporting the development of Economic informatics education and for the encouragement of young researchers in their daily activity. Thus, in the pages of the *Informatica Economica* journal there are numerous articles of these young people, many of them in different stages of their doctoral internships in order to publish original solutions that will be included in the chapters for contributions to the doctoral thesis.

I am proud and grateful to INFOREC Association for awarding me the "Grigore Moisil" Award and the "Man of the Year 1999" award from INFOREC (Professional Association for Economic Informatics).

Informatica Economica journal contains papers of applied informatics realized by specialists in the IT&C field and from universities. The main goal of the journal is to promote high level research papers in the economic informatics field. The journal welcomes interdisciplinary approaches and the publication of original scientific research papers.

The editorial team has constantly improved the journal content, collaboration with authors from different countries, the papers review process, citations and papers structure.

All that has been mentioned show that research, teaching and industry are the mainstays for teachers working in the field of Economic informatics, which gives all the guarantees that

higher education in economics is on the right track, and future generations of graduates will meet, as before, the requirements of those they will work on after graduation.

Dear Colleagues, I cannot conclude, on a personal note, without declaring to you on this occasion my gratitude and pride for having considered me one of yours, and I beg you to receive, once again, the expression of my commitment to be with you and contribute, as much as possible, to your achievements and successes.

I wish success to the *Informatica Economica* journal and long life to Economic informatics education in our country.

13.12.2021

Acad. Florin Gheorghe FILIP
President of Science and Information Technology Section of the Romanian Academy
